	Contact: 02135-299007 Mail: chakanbloodcenter09@gmail.com	blood donation"

Abstract of proceedings: A Blood donation camp was organized by our NSS unit, in collaboration with Chakan Blood Center, through which more than 50 units of blood was donated by both students and the staff members of our VPS Engineering college. It is a way of VPS Engineering College in bringing a ray of hope to contribute to the serious problems of acutes shortage of blood. India faces a blood shortage of 3 million units. The problem can be addressed if an additional two percent of Indians donate blood, as opened by the Health experts. We need 12 million units of blood every year but just about nine million units are being donated. Our College has been

religiously organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing to people at the camp our NSS volunteers brought awareness in them about shortage of blood, awareness about health benefits of blood donation and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons. It is as such a great service or contribution to the society and people living in it. To collect blood units but also to make students aware about blood and its benefits. It was an effort to motivate students to come forward and donate for this noble cause. First time donors need to be encouraged so that once the initial hesitation/ fear goes away, the donor will look forward to such camps in near future too. To help anyone, in case of any requirement for blood.

General Participant Feedback:

Appreciations: The participants have showered much appreciation on the session as being informative, important and interactive. They explained how the session is useful for them.

Summary of sessions

Sr. No.	Resource Person with details	Tonio
1	Osden D'Mello, Sr. relationship manager, Columbus IT & management consultant	Topic Life skill-Personality development skills, seminar skills and career guidance

Abstract of proceedings: With the changing educational trends, versatility in educational courses, availability of masses of qualified personnel, the competition for job acquisition and job sustainability is becoming more and more tough. To get an edge over the competitors, students are left with no choice but to add values to their hard skills with soft skills to exhibit their true potential. Hard skills are academic skills, experience and level of expertise while soft skills are self-developed, interactive, communication, human and transferable skills. Literature suggests that hard skills contribute to

only 15% of one's success while remaining 85% is made by soft skills. Most employers these days want to hire, retain and promote persons who are dependable, resourceful, ethical, self directed, having effective communication, willing to work and learn and having positive attitude.

General Participant Feedback:

Appreciations: The participants have showered much appreciation on the session as being informative, important and interactive. They explained how the session is useful for them for development of soft skills as well as seminar skills.

The study tries to understand the awareness, need and importance of soft skills in students, type of courses/projects/activities initiated by varied educational institutions at undergraduate and postgraduate levels, their relevance, teaching-learning process, their impact in developing soft skills and benefits to students. Training Programme presents the findings of the above study.
