Report on Career guidance in Merchant Navy seminar

Name of the event: Career guidance in Merchant Navy

Organized by: Dr. Harish Harsurkar(TPO,VPSCET Lonavala)

Date & Time: 01/06/2023,10AM to 5PM.

Summary of sessions

| Sr. No. | Resource Person with details | Topic |
|---------|---|------------------------------------|
| 1 | Sheetal Thakkar Co-ordinator Contact: 7775861094 | "Career guidance in Merchant Navy" |

Abstract of proceedings: In a program navy officers team guided the mechanical engineering students to set up a career after engineering i.e., If you are a mechanical engineer and wish to join the Indian Merchant Navy, you can become a marine engineer using your mechanical engineering degree. Numerous topics are covered in both mechanical and marine engineering courses, making it more straightforward for a mechanical engineer to earn a second degree in marine engineering and gain access to new career prospects.

Additionally, people who already hold a mechanical engineering degree may consider studying marine engineering due to the

current shortage of maritime specialists in the shipping industry and the dearth of quality mechanical engineering positions available.

The benefit of studying marine engineering after mechanical engineering is that you avoid going through the demanding four-year engineering training program required for marine engineers. Only a one-year specialist course is required.

You can join the Merchant Navy after mechanical engineering through the one-year GME Course! After completing mechanical engineering, all you need to become a marine engineer is this one-year GME (Graduate Marine Engineer) course.

General Participant Feedback:

Appreciations: The participants have showered much appreciation on the session as being informative, important and interactive. They explained how the session is useful for them. They get to know about the career opportunities after the degree course and the best option of career.
